ORDER

This matter is before the court on respondent's "renewed" motion to dismiss.¹ Having fully considered the motion, it is DENIED.

This 12 October 2011.

W. Earl Britt

¹Although the instant motion is respondent's third motion to dismiss, respondent has not previously raised the basis that he now raises, that being, an alleged due process violation for the government's failure to bring a "final commitment" hearing within a reasonable time.
